Mean Interpretation:

- The average marks from 10th grade (ssc_p) to MBA range between 62% and 67%, showing relatively consistent academic performance across education levels.
- However, students performed slightly better in the entrance test (etest_p) with an average score of 72%.
- The average salary offered is approximately 288,655.

Median Interpretation:

- The median marks are very close to the mean marks.
- However, the median salary (265,000) is lower than the mean salary (288,655), which indicates the presence of some higher salary values (outliers) that increase the mean.

Mode Interpretation:

- The mode values for academic marks are also close to the mean and median, confirming the consistency in students' academic performance.
- The most frequently occurring salary is 300,000, indicating that this is the most common salary package offered to placed students.
