SSC Marks (ssc_p)

- From the 25th percentile (60.6%) to the median (67%), marks increased by about 6–7 marks.
- From the 75th percentile (75.7%) to the maximum (89.4%), marks increased by about 14 marks, showing some students scored much higher.
- The highest SSC score is 89.4%, while the top 1% of students scored around 87% or above.

Higher Secondary Marks (hsc_p)

- From the 25th percentile (60.9%) to the 75th percentile (73%), marks increased by about 12 marks, showing most students' HSC marks fall within this range.
- The median mark is 65%, which is close to the lower quartile, indicating many students scored around the mid-60s.
- The maximum HSC score is 97.7%, while the top 1% of students scored around 91.9% or above.

Degree Marks (degree_p)

- The median degree mark is 66%, which is very close to SSC and HSC medians, showing consistent academic performance across education levels.
- The top 1% of students scored around 83.9% or above, showing only a few students achieved very high degree marks.
- The maximum degree mark is 91%, which is about 25 marks higher than the median (66%), indicating some students achieved much higher degree results.

Entrance Test Marks (etest_p)

- The median entrance exam score is 71%, which is higher than most other academic medians, indicating students performed slightly better in the entrance test.
- The difference between the 25th percentile (60%) and the median (71%) is about 11 marks, showing a noticeable improvement among the middle group.
- The highest entrance exam score is 98%, which shows some students achieved very strong results.

MBA Marks (mba_p)

- The median MBA mark is 62%, which is slightly lower compared to SSC, HSC, and degree medians.
- Most students' MBA marks fall between 57.95% and 66.25%, showing that MBA scores are concentrated within a small range.
- The maximum MBA mark is 77.89%, which is about 16 marks higher than the median.

Salary

- The median salary is 265,000, which represents the typical salary offered to many students.
- The difference between the 75th percentile salary (300,000) and the median is 35,000, indicating better packages for higher-performing students.
- The highest salary is 940,000, which is much larger than other values and suggests a strong outlier in the dataset.
